Anas Tahir

Passionate Flutter Developer with over 2 years of experience in scalable cross-platform app development using Flutter & Dart. Proficient in RESTful APIs, Firebase, Dio, and clean architecture (MVVM, MVC). Skilled in mobile monetization using Google Ads and delivering intuitive UI/UX.

Work Experience

Flutter Developer(Cross Code Lahore)

Nov 2023 - Present

- Designed, developed, and deployed scalable mobile apps.
- Integrated RESTful APIs and handled asynchronous data using Dio and HTTP packages.
- Utilized Firebase for real-time database, authentication, and cloud storage.
- Implemented clean code architecture using MVVM and MVC patterns.
- Engineered responsive user experiences across platforms for seamless user experience.
- Collaborated on projects using Git and GitHub for version control.

Education

Bachelor of Science in Information Technology (BS-IT)

University of the Punjab Lahore
2020 - 2024

Projects

Printer App

- Developed a mobile app that connects with wireless printers to print documents directly from the device.
- Implemented features like file selection, print preview, and print history.
- Integrated Firebase for data sync and Google Ads (Banner and Interstitial) for monetization.
- Play Store Link:https://play.google.com/store/apps/details?id=com.anas.smart_printer&pcampaignid=web_share

Resume Builder App

- Created an app to help users design, customize, and export professional resumes in PDF format.
- Added multiple resume templates with real-time editing features.
- Integrated Google Ads (Banner & Rewarded) to unlock premium templates.
- Used MVC architecture and Firebase Storage for resume saving.

Smart Tools

- Developed a multifunctional utility app combining essential daily-use tools in one place. Integrated features like document scanning, unit conversion, QR generation/scanning, and device utilities to enhance productivity. Implemented a clean UI, optimized performance, and added Google Ads for monetization.
